DisclosedRx

The Fiduciary and Fully DisclosedRx PBM®

DisclosedRx Premier Formulary

HEALTH COOPERATIVE STRATEGIES

This document contains information about the medications covered on the DisclosedRx Premier Formulary. This document represents an abridged list of the most commonly prescribed medications on the full formulary. Please visit www.disclosedrx.com or contact DisclosedRx at 480-561-6005 for additional information about your pharmacy benefit.

How to Use This Document

What Is the DisclosedRx Premier Formulary?

The DisclosedRx Premier Formulary is a searchable list of drugs that are covered by your pharmacy benefits. It helps you understand the medications that are included in your plan and their copay tier. This list is reviewed regularly by our Pharmacy & Therapeutics (P&T) Committee to make sure it includes safe, effective, and affordable treatment options.

Please visit www.disclosedrx.com or contact DisclosedRx at 480-561-6005 for additional information about your pharmacy benefit.

How Is the Formulary Organized?

Medications are grouped by **Therapeutic Class**, which means they are sorted based on what they treat (like heart conditions, infections, or allergies).

- **Generic drugs** are written in *lowercase italics*. These are just as effective as brand-name drugs and are usually less expensive.
- **Brand-name drugs** are written in **ALL CAPS**. These are the original versions of medications and often cost more than generic alternatives.

What Are Drug Tiers?

Each medication is placed into a **tier**, which affects how much you pay out of pocket. Here is what each tier means:

- **Tier 1 – Preferred Generics**: These are low-cost, commonly used generic drugs. They are usually the most affordable option.
- **Tier 2 – Non-Preferred Generics and Preferred Brands**: These are generally moderately priced medications. You will see some higher-cost generic drugs on this tier.
- **Tier 3 – Non-Preferred Brands**: These are generally moderately priced brand-name medications.
- **Tier 4 – Plan Exclusions**: These medications are not covered by your pharmacy benefit. This means that if a drug is listed as excluded, the plan will not pay for it, even if your doctor prescribes it. You would have to pay the full cost of the drug out of pocket unless an exception is approved.

What if My Medication Is Not Listed on This Document?

This is not an all-inclusive list of prescriptions, over the counter (OTC) medications, or prescription medical supplies that are on the formulary. **Additionally, inclusion on this list does not guarantee coverage since your specific plan parameters supersede the formulary (i.e., some plans may not cover fertility or weight loss medications. Those medications may appear on this list).** Please refer to your benefit materials on your specific plan parameters.

Please contact DisclosedRx at 480-561-6005 for additional information about your pharmacy benefit.
